

# TEMPUS JETS

**FOR IMMEDIATE RELEASE – Denver, January 2018**

## **Tempus Jets reallocates the Scottsdale Maintenance facility to Falcon Field Airport to optimize customer service for the Arizona area.**

**New Facility Location-** Tempus Jets announces today the relocation of its Authorized Pilatus Service Center from Scottsdale Airport (SDL) to Falcon Field Airport (FFZ) in Mesa, Arizona. The Falcon Field Airport facility address is *4562 E Mallory Circle, Mesa, Arizona* and is located on the north side of the airfield.

The facility will offer extensive aircraft service with Pilatus Factory Trained Mechanics for Pilatus aircraft including:

- Scheduled / Unscheduled Maintenance
- Major Repairs
- Modifications
- Inspections (Annual, 100hr and Pre-purchase)
- AOG/Mobile Repair
- Engine Borescopes
- Engine Hot Section Restorations
- Engine Changes

**Mobile Repair Unit** - In order to decrease aircraft down time and costs for our customers, Tempus Jets has custom designed a mobile repair unit (see picture below). The mobile repair unit will be dispatched to your hangar to perform on site trouble shooting and maintenance. Tempus Jets will have a mobile repair team available 24 hours a day and will be available to retrieve AOG aircraft in remote locations.

**Centralized Scheduling of Service** - maintenance appointments can be made by calling our Technical Service Coordinator, Katie Bales at 303-799-9999 or email at [kbales@tempusjets.com](mailto:kbales@tempusjets.com).

If calling after hours, our **Tempus Jets 24 / 7 AOG number is 303-842-0558 (Service) / 720-305-7000 (Parts)**.

Denver Centennial Airport  
12260 E. Control Tower Road, Englewood, CO 80112
